

WHY INSULATE?

Insulation, along with draught sealing, is often the single biggest energy saving and cost effective measure that is available to the homeowner without undertaking major renovations. Insulation can save 45-55% of heating.

The new building code requirements for Victoria are a total of R3.2 in ceilings and R1.7 in walls.

CLEAR COMFORT

clear comfort
INTELLIGENT INSULATION

All the benefits of double glazing at a fraction of the cost. A transparent plastic membrane provides an insulating film on existing windows. All you need to do is cut to size and tape to your window frame and heat shrink the film with a hairdryer.

MODEL	DIMENSIONS (m)	RRP
Mini Kit	1.2m x 0.8m + Tape	\$27.50
Super Kit	1.6m x 10m + Tape	\$198.00

CONCERTINA FOIL BATTS

Concertina foil batts are excellent for use in roofs, walls and floors. They stop 97% of summer radiant heat, are asthma friendly, vermin free and fire safe. Can be used in conjunction with bulk insulation.

BATT SIZE (mm)	"R" VALUES	M ² PER PACK	PRICE PER M ²	RRP
1200 x 450	2.2 (Timber floor)	13.5	\$5.5	\$74.25
1200 x 600		18		\$99
1350 x 450	2.4 (Walls)	15.2	\$5.5	\$83.60
1350 x 600		20.25		\$111

RENSHADE

Renshade perforated aluminium foil insulation operates as a radiant heat barrier for windows. Benefits are 85% reduction in radiant heat flow, less glare and damage to indoor furnishings and flooring. Reduces the need for artificial cooling and double glazing. It is easily removed and reusable. External view maintained with total privacy during daytime.

MODEL	DIMENSIONS (mm)	RRP
Renshade	1.35 x 5m roll	\$81.00
	1.35 x 10m roll	\$162.00

SILVERBATTS WAVE CORE MAX

Silver Batts Wave Core Max are aluminium foil sheets with air pockets, reflecting up to 100% of radiant heat. For walls and ceilings, Silver Batts Wave Core Max are especially effective in summer.

BATT SIZE (mm)	"R" VALUES	M ² PER PACK	PRICE PER M ²	RRP
1200 x 450	6 in summer	8.64	\$12.50	\$108
1200 x 600	2.5 in winter	11.52		\$144

AIRCELL

AIR-CELL® Insulation is a clean, fibre free alternative to conventional bulk fibre insulation.

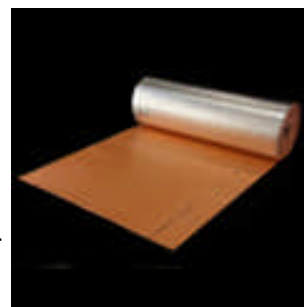

AIR-CELL® combines the technology of reflective air spaces with the conduction resistance of an encapsulated air-cell structure, all in one ultra-thin sheet and one application. AIR-CELL® Insulation is more than an insulation product. Its tough moisture and impact resistant properties also produce a weather resistant barrier under roofs, protecting ceilings from roof leaks, storm damage and even hail damage.

Permifloor™ is an insulation innovation designed specifically for suspended framed floor applications delivering a 2-in-1 insulation and moisture management system.

Glareshield® is AIR-CELL Insulation's patented thermo reflective anti glare insulation.

Retrosshield® has been developed with a unique reflective anti-tear surface, as both a vapour barrier and a high performance insulation.

Insulbreak® is a 3-in-1 insulation, vapour barrier and thermal break solution for steel-framed construction.

MODEL	ROLL SIZE	PRICE PER M ²	RRP
Permifloor™	1.35m x 33.33m x 4mm (45m ²)	\$9.60	\$432
Glareshield®	1.35m x 22.25m x 7mm (30m ²)	\$10.60	\$318
Retrosshield®	1.35m x 22.25m x 7mm (30m ²)	\$11.00	\$330
Insulbreak® 65	1.35m x 22.25m x 6.5mm (30m ²)	\$10.40	\$312
Insulbreak® 80	1.35m x 22.25m x 8mm (30m ²)	\$10.40	\$312

GREENSTUF®

Designed to provide safe thermal and acoustic benefits to the Australian homeowner, **Greenstuf® Batts** are 100% polyester. There are no additives or other components used in the manufacturing process. **Greenstuf® 100% Polyester** insulation is a non-irritant, user friendly thermally efficient polyester material used for residential and commercial applications

FEATURES & BENEFITS

- Made from 100% polyester
- User friendly - no protective clothing is required upon installation or removal.
- Environmentally friendly and fully recyclable
- Non-toxic
- Non irritant and non allergenic
- Fully complies with the Australian & New Zealand building codes
- Easy to install
- Excellent acoustic absorption characteristics
- Long term stability and performance
- Resistant to insect and rodent attack
- Product is not affected by moisture

QUIETSTUF®

Noise control is becoming very important for our health and well-being. Quietstuf® 100% Polyester Sound Batts are designed to greatly reduce unwanted stressful sound/noise in your home or commercial environment. The product is used to acoustically insulate internal/external walls and mid floor cavities. Quietstuf® 100% Polyester Sound Batts reduces airborne sound, impact noise and noise transmission. The product is ideal application when

- Building a new home/building
- Renovating your home/building
