

## BIO PRODUCTS AUSTRALIA

As our awareness of the detrimental effects of chemical materials on our health grows, creating healthy homes and workplaces is becoming more important. Many conventional paint ingredients are dangerous chemicals with short and long term negative health effects to those who breathe their fumes (for more information ask for the "Conventional Paint Information" specification sheet).

**Bio Paint** was subsequently developed in 1985 as a natural alternative to conventional paint and is manufactured by Bio Products in South Australia.

## WHY USE BIO PAINTS?

- **Low allergy:**  
The natural base of Bio Products allows your family to enjoy a better and healthier life-style.
- **Non poisonous:**  
You make your home and environment a safer place by using Bio Products.
- **Free from dangerous solvents:**  
For example toluene, xylene, glycol ether derivatives.
- **Pigments:**  
Typically our pigments such as earth and metal pigments are naturally occurring substances.
- **Only natural preservatives:**  
Natural ingredients act perfectly as a preservative.
- **Excellent durability and hiding power:**  
Our wall paints can be scrubbed clean and have a hiding power of 98.3%, which is better than most conventional paints.
- **Breathing walls:**  
Bio Products do not seal your walls. They can breathe.
- **Uses the least amount of non renewable resources**
- **Bio Paint cares for your health and for the environment:**  
By using Bio Products you are promoting the maintenance of a healthy balance between mankind and nature.
- **Support the natural paint industry**
- **Bio Products are Australian owned and made**

## POLICY ON INGREDIENTS

1. They are acquired without over exploitation of nature and are of reliable and reproducible standard.
2. Originate from renewable resources (with the exception of small amounts of earth minerals and metals being mined).
3. Can be returned to the natural cycle without threat to the environment.
4. Do not contribute to the depreciation of nature.

## COVERAGE OF BIO PAINTS

Measure the area to be painted. It is best to measure the surface area in m<sup>2</sup>.

APPROXIMATE COVERAGE (per Litre)	m <sup>2</sup>
Wall Paints	10
Enamel Lacquers	8-12
Colour Varnishes	10-12
Clear Varnishes	15-18
Wood Oils	8-12
Waxes	40-100

## WALL & CEILING PAINTS

A matt interior paint based on natural and non toxic ingredients. For use on interior surfaces such as plaster-board, solid plaster, concrete and mud brick. Bio Wall Paint breathes, while conventional wall paints seal off the walls, which can promote mould growth.

## ENAMEL LACQUER

A thick, dirt and water-repellent, gloss or satin painted finish. Containing no toxic solvents, resins or heavy metals. Suitable for all wood types, steel, aluminium and copper. Especially suitable for use on toys, paneling, skirting and architraves, garage doors and window frames.

## FLOOR VARNISH

A transparent interior floor varnish in gloss or satin providing a colourless, hard but flexible dirt and water repellent finish. For use on timber, stone and other floors. May also be used on furniture, toys, banister, shelving, ceilings, windows, doors etc.

## TEAK OIL

A breathing, satin, water-repellent, oil based finish for use on interior timber, cork, unglazed floor tiles and porous stone surfaces. Bio Teak Oil can be used as a complete finish.

## NATURAL TIMBER OIL

A penetrating and finishing oil which deepens and enhances the natural grain of the timber. It is resistant to dirt and moisture. Suitable for exterior panelling, garden furniture, windows, sandpits, box framing, rafters, pergolas etc.

**All paint products can be freighted throughout Victoria via courier company.**
