This is a comprehensive guide to beekeeping - from finding your bees to getting them home, housing them, collecting honey and using their produce. It includes a detailed look at the history of bees and beekeeping, and an extensive introduction to help you to fully understand your bees and keep them happy. Whether you have a tiny balcony or acres of land; live in the middle of a city or in the countryside surrounded by flowers, this book caters for every situation. It features comprehensive advice on how to safely collect your honey and wax, with recipes and ideas on how to use them.

Keeping Bees and Making Honey	\$34.95
AgSkills by NSW Department of Primary Industries	\$29.95

A basic guide to some of the skills and practices of bee production. Easy to follow for those new to bee keeping, this book contains step-by-step instructions, diagrams and full-colour pictures. Includes how to maintain hives, use a bee smoker, catch a swarm, remove and extract honey, health and pests in the hive, buying equipment, and working safely with bees.
