

BIO TIMBER CARE POLISH

| | |
|--------------------|--|
| DESCRIPTION | A silky matt self polishing concentrate, developed by BIO for use on all varnished, oiled and waxed wooden surfaces like toys, furniture, panels as well as cork, linoleum and stone floors. It provides protects surfaces from dirt and mechanical wear. It will not form unpleasant, stubborn wax layers. Excellent for maintaining and protecting smooth leather. Use sparingly, especially on stone. |
| APPLICATION | Apply with a lint free cloth liberally. On newly treated surfaces apply the first coat undiluted after four weeks. Floors: Remove dirt first and apply one undiluted coat. On heavy traffic areas apply undiluted again when necessary. For regular cleaning use Bio Timber Care Polish diluted at the rate of 50 ml in 5 Litres of warm water. Apply with a damp, not a wet cloth. |
| INGREDIENTS | Vegetable hard wax, essential oils, water. |
| COVERAGE | Before dilution, 1 Litre BIO Natural Cleaning Emulsion will cover 40-70 sqm. |
| PACKAGING | 0.5, 1 Litre and 20 Litres. |
| STORAGE | Keep tightly sealed in a cool, dry place. Close container well after use. Keep Out of the reach of children. |
