

Battery Rebate for Owner-Occupiers

A battery system rebate is available for owner-occupiers in Victoria provided:

- You are the owner-occupier of the property;
- It is an existing property, valued at under \$3 million;
- The property sits within a targeted postcode, as identified by Solar Victoria;
- The owners have a combined household taxable income of less than \$180,000 per year (based on last year's Australian Tax Office Notice of Assessment);
- You already **have** PV panels installed with a capacity equal to or greater than 5kW;
- You do not already have an existing energy storage system;
- You have not already received a rebate as part of the Solar Homes program;
- You agree to install an energy storage solution listed on Solar Victoria's Approved Battery List;
- You are willing to receive information from their Distribution Network Service Provider about participating in battery trials to maximise the value households get from their battery;
- You agree to receive a free safety inspection and/or audit under the Solar Victoria Audit Program if selected;
- Solar Victoria continues to offer this rebate.

The eligible postcodes for the pilot program:

3048 3038 3059 3064 3106 3752
3754 3212 3217 3218 3226 3228
3024 3351 3377 3467 3936 3939
3941 3942 3943 3944 3977 3978

Battery Rebate for Owner-Occupiers

The steps:

1. Request that Going Solar provide a quotation (which might involve a site visit).
2. Going Solar prepares a PV system design and a quotation which we send to you.
3. If this quote is acceptable send an email to Going Solar saying that you want to proceed with the system installation. (Or we can revise the quote to suit).
4. Going Solar uploads the accepted quote onto the Solar Victoria portal.
5. Solar Victoria will contact you and you will need to complete an application via the portal. **(Note you have only 14 days to do this before the quote is automatically removed from the portal).**
6. All being well you will be issued with an eligibility number.
7. Send this eligibility number to Going Solar.
8. Going Solar will send you our contract to sign.
9. Return the signed contract along with a deposit (usually 30%).
10. Going Solar prepares the stock, books the installers, installs the system, organises the Certificate of Electrical Safety and assists with the meter change paperwork.
11. Pay the balance owing (less any rebates).

Notes:

- Going Solar **can** participate in this program without paying to be on the Approved Retailer List **until November 1, 2019**.
- The number of rebates offered by Solar Victoria is limited each month. You may have to wait for available rebates.
- Make sure you have all your documentation ready before Going Solar uploads your quote to the portal as you only have a limited time to respond before the offer expires.
